Making you the expert®

2020 has been filled with the unexpected for everyone. We want to thank you for your support of our family business this year, it is always humbly and gratefully received. We have evolved our business dramatically over the last 18-months to deliver on our promise of 'Making you the Expert®', I am excited to share our latest development with you.

Artificial Intelligence is the answer to the previously unanswerable wine challenge plaguing the global wine industry for decades, in fact forever! At Fine Wine Delivery we have tasted every wine we sold since our inception in 1997 to provide a guarantee of quality & value for our customers. However, the huge style difference within a single variety like Chardonnay, has never been able to be effectively communicated to wine drinkers other than through face to face interaction with highly experienced people... even then we can get it wrong on occasions.

Utilizing IBM's "Watson" Artificial Intelligence platform and partnering with outstanding AI developers "Spacetime" 18-months ago has made Fine Wine Delivery the first Beverage retailer in the world to conquer the style dilemma with our global leading AI initiatives like "SmartSearch" natural language search bar on finewinedelivery.co.nz - in concert with the August release of our "Flavour Wheel" online, our Internet sales (already a huge slice of our gross sales pre AI) have doubled and that has happened alongside an increase in our store sales. We have recently added two 28-inch touch screens in both stores loaded with "Expert Assist", another of our global leading AI tools that includes the flavour wheel technology and firmly puts the wine choice (equally effective with craft beer & fine spirits) in your hands. We call it - 'Making you the Expert®'. When it comes to defining wine style there is no right or wrong, only the truth of what you enjoy! Jump on the "Flavour Wheel" online or on our large instore touch screens and select between 6-12 flavours that appeal to you. In seconds you will be presented with a precisely matched line up of options which you can further filter by price, region, alcohol and more. Even with 43-years of industry experience I can't deliver at the level our AI technology can in terms of its accuracy, consistency, depth of selection and speed.

Style is 50% of any wine buying decision and for any novice wine drinker to explain what they enjoy is intimidating and challenging. Using "Flavour Wheel" empowers you to make great wine choices 100% of the time, whether you are absolutely novice or the most experienced of wine drinkers. It puts everyone on the same level, giving you the unique ability to accurately make your own wine choices - 'Making you the Expert®'. I'm thrilled' I have striven to answer this critical dilemma all 23-years I've owned and been tasting wine at Fine Wine Delivery. Our family has done it... a world first and more importantly it works and once used it will change the way you buy wines, craft beers and fine spirits forever. We have more exciting AI tools coming before Christmas for you, by the time you're reading this article my (Jeff) avatar should be on finewinedelivery.co.nz engaging with you in audio to answer wine queries and provide additional guidance.

These global breakthroughs are the work of an innovative and nimble family owned Kiwi wine company with vision and values working with an outstanding Kiwi AI development partner to utilize the incredible AI platform "Watson" provided by global tech giant and leader IBM.

Our family is proud – we did it to empower, excite, educate and make your every beverage experience at Fine Wine Delivery perfect!

Happy Festive Season from our Family & Team.

- Jeff Poole

Rare Luxury Bollinger x Bond Tribute to Moonraker

Only 407 released in the world

The first bottle of Bollinger appeared alongside 007 with the release of Moonraker in 1979. To celebrate this iconic 40-year partnership Champagne Bollinger and 007 pay tribute to their shared heritage and revisit the space shuttle created by legendary production designer Sir Ken Adam. Champagne Bollinger enlisted designer Eric Berthes to revisit the Moonraker space shuttle. The hull is made up of three pewter sections with a fine wood veneer inlay. The crystal ice-bucket was made by the famous Saint-Louis glass manufacturer. Each handcrafted box weighing 15kg.

With only 407 made, each piece crafted by hand and individually numbered. Only two made it to NZ, this is an exceptionally rare and collectible item.

Champagne Bollinger 007 Moonraker Special Edition Magnum 1.5L

The Moonraker Luxury Limited Edition contains a magnum of Bollinger 2007 - the perfect vintage for James Bond if ever there was one! Made from a blend of 70% Pinot Noir and 30% Chardonnay from Grands and Premiers Crus, vinified in small old oak barrels, then riddled and disgorged by hand.

Main Divide Pinot Noir 2018

94 POINTS FWD TASTING PANEL · AS REVIEWED BY MICHAEL COOPER

Main Divide is the GREAT enigma of NZ Pinot Noir at its price! Old Vine Estate fruit handpicked and crafted traditionally a la red Burgundy. A fulsome, quite luxurious mid-palate laden with ripe fruits, spices, and savoury oak. It has a luscious, long finish with savoury and spice emerging throughout its svelte body. It's hard to see how they make money from Main Divide... it sets others impossible standards at the price.
